Cautionary Note on Forward-Looking Statements

This press release includes forward-looking statements, including for example, the approval of our NDA submission for veverimer under the FDA's Accelerated Approval Program and the potential timing of the approval and commercial launch of veverimer. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These risks and uncertainties include, among others, the cost, timing and results of clinical trials and other studies; that many drug candidates that have completed Phase 3 trials do not become approved drugs on a timely or cost effective basis, or at all; there can be no assurance that the FDA will approve our NDA for veverimer under the Accelerated Approval Program, or at all, and even if approval for veverimer is obtained, there can be no assurance that it will be adopted in the market or accepted as a benefit to patients and healthcare providers; possible safety and efficacy concerns; and that we completely rely on third-party suppliers and manufacturers. These and other factors that may affect our future results of operations are identified and described in more detail in our filings with the Securities and Exchange Commission (SEC), including our Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2019, filed with the SEC on August 8, 2019. You should not place undue reliance on these forward-looking statements. The forward-looking statements contained in this press release reflect Tricida's current views with respect to future events, and Tricida does not undertake and specifically disclaims any obligation to update any forward-looking statements.
